Andrew Towns

- Developed a minecraft server hosting application using Docker, React, and Node.js
- Self-taught React, Docker, HTML/CSS skills online to supplement development

2023

INTERESTS

I have keen interests in chess and tennis. I have competed in chess tournaments off and on since high school, and even started my own club in university. I play tennis at least once a week, and I have been playing since joining the team in high school.

I also have interests in physics and philosophy. I try to read a few books from each every year and I am a regular listner of the Mindscape podcast with Sean Carroll.

Random joke using jokeapi.dev: "Honey, go to the store and buy some eggs."
"OK."
"Oh and while you're there, get some milk."
He never returned.

Using Chess.com puzzles API: White to move
